The Pennsylvania Council of Trout Unlimited will present its annual awards during the fall meeting at the Shavers Creek Community Building in Petersburg, PA on Oct. 3, 2015.

There is a huge amount of extraordinary work being accomplished by PATU.

PATU award nominations due July 31

The Pennsylvania Council of Trout Unlimited will present its annual awards during the fall meeting at the Shavers Creek Community Building in Petersburg, PA on Oct. 3, 2015.

Many of you who have expressed interest in coming to Trout Unlimited’s Annual Meeting in Scranton from Sept. 16-20 have asked the same question, “Will there be activities for my spouse to take part in while I am busy attending break-out sessions or meetings?”

It would probably be best if my wife addresses that issue.

Rosangela says: “Last year, National TU conducted the greatest spouses’ tour and activities in Santa Fe (NM). I am a fisherman and a member of TU, but I elected to forgo the meetings and go on the tour with a fantastic group of ladies. I told my husband that he was going to have to come up with something very special to outdo what was done last year.”

Well it certainly looks like Nancy Bradley and National TU have done just that.

Friday and Saturday tours and shopping will brighten the trip for those who take the spouses’ tour. I can’t elaborate on everything because some things have not been revealed.

An unplugged oil well in Tamarack Swamp, Warren County, results in an oily film on the water’s surface.

In search of abandoned wells

By Genevieve Elsworth

Pennsylvania has a nearly 150-year history of oil and gas development, beginning in 1859 with the first oil well drilled in Titusville by Edwin Drake. Working for the Pennsylvania Rock Oil Company in search of petroleum as an alternative to rare and expensive whale oil, Drake’s first productive oil well extended 69 feet below

Range of activities on tap for National TU meeting in Scranton

By Charlie Charlesworth

National Meeting Chair

Many of you who have expressed interest in coming to Trout Unlimited’s Annual Meeting in Scranton from Sept. 16-20 have asked the same question, “Will there be activities for my spouse to take part in while I am busy attending break-out sessions or meetings?”

It would probably be best if my wife addresses that issue.

Rosangela says: “Last year, National TU conducted the greatest spouses’ tour and activities in Santa Fe (NM). I am a fisherman and a member of TU, but I elected to forgo the meetings and go on the tour with a fantastic group of ladies. I told my husband that he was going to have to come up with something very special to outdo what was done last year.”

Well it certainly looks like Nancy Bradley and National TU have done just that.

Friday and Saturday tours and shopping will brighten the trip for those who take the spouses’ tour. I can’t elaborate on everything because some things have not been revealed.

The Coldwater Heritage Partnership is pleased to announce that over $58,000 in grants have been awarded to local organizations to protect and conserve Pennsylvania’s coldwater streams. The Coldwater Heritage Partnership is a collaborative effort between the PA Department of Conservation and Natural Resources, Foundation for Pennsylvania Watersheds, PA Fish and Boat Commission and PA Council of Trout Unlimited.

The purpose of the program is to provide leadership, coordination, technical assistance, and funding support for the conservation and protection of Pennsylvania’s coldwater streams. The program awards planning and implementation grants to conservation organizations in an effort to protect and conserve Pennsylvania’s coldwater resources.

The planning grant is awarded to organizations to create a coldwater conservation plan that evaluates the biological, physical, and chemical features of the stream or watershed to identify potential threats, impacts, and opportunities and compile recommendations for future protection.

The implementation grant is awarded to organizations to complete projects listed as recommendations in Coldwater Conservation Plans or similar documents. Potential projects must conserve, protect, or enhance the resources.

Grants have been awarded to the following organizations:

**Planning Grants**

**Natural Lands Trust, Inc.**
- $5,000 to create a collaborative and comprehensive plan in an effort to understand and protect Shade Creek, Luzerne County.

**Western Pennsylvania Conservancy**
- $4,300 to develop a Coldwater Conservation Plan for the East Branch Tionesta Creek, McKean County to aid regulatory agencies, local residents, and conservation groups in a more informed manner in the management of the resource.

**Susquehanna Chapter of Trout Unlimited**
- $5,000 to develop a comprehensive Coldwater Conservation Plan for the Rock Run watershed, Lycoming County that may be used to secure additional funding for the restoration projects to enhance the native brook trout fishery.

**Eastern Pennsylvania Coalition of Abandoned Mine Reclamation**
- $5,000 to complete an assessment of natural trout populations and potential AMD and AML impacts to the Laurel Run, Luzerne County, a tributary in the Mill Creek watershed.

**Implementation Grants**

**Heritage Conservancy**
- $6,923 to improve the habitat quality and stream buffer along the Cooks Creek, Bucks County.

**Trout Unlimited, Eastern Abandoned Mine Program**
- $4,000 to stabilize 500-600 feet of eroding streambank and enhance habitat through the placement of multiple PFBC-approved habitat structures on the Chase Estate property in the Potts Run watershed, Clearfield County.

**Wildlands Conservancy**
- $7,000 to implement stream restoration recommendations along high priority reaches in Coplay Creek, Lehigh County.

**Monocacy Chapter of Trout Unlimited**
- $7,000 to restore Monocacy Creek, Northampton County through dam removal as recommended in the Monocacy Creek Management Plan.

**Lackawanna Valley Chapter of Trout Unlimited**
- $7,000 to complete instream habitat, shade tree plantings, bank stabilization, riparian buffer improvement and knotweed eradication on the Lackawanna River, Lackawanna County.

**Penns Valley Conservation Association**
- $7,000 to complete 20 fish habitat and streambank stabilization structures, and establish a 2.5 acre forested buffer of 400 native trees and shrubs in Muddy Creek, Centre County, a tributary to Penns Creek.
the surface and produced between eight and 10 barrels of crude oil daily. Since this first successful attempt at oil extraction, Pennsylvania has experienced an explosion in oil and gas development.

This industrial development proceeded unfettered for nearly 100 years, until the passage of legislation required permitting to drill through coal seams in 1956 and permitting to drill all wells in 1963. Regulation of oil and gas wells that had been abandoned by responsible operators was not established until 1985, with the passage of the Oil and Gas Act of 1984, which required operators to plug nonproducing wells and established the Abandoned and Orphan Well Program to plug wells abandoned before 1985. Additionally, this legislation established the distinction between abandoned and orphan wells. Although both terms describe non-producing oil and gas wells, an abandoned well has a responsible oil and gas operator to properly plug well and restore the site location while an orphan well has no responsible oil and gas operator to do so, and is thus under the jurisdiction of the Pennsylvania Department of Environmental Protection.

Although assessments of the number of wells drilled since the inception of oil and gas development vary, estimates by the Independent Petroleum Association of America suggest approximately 325,000 wells have been drilled since 1859. Of this total estimate approximately 125,000 wells are permitted while a staggering 200,000 wells have been drilled since 1859. Of this total of undocumented wells verified by the PA Department of Environmental Protection Abandoned and Orphan Well Program, the government agency responsible for documenting and plugging abandoned oil and gas wells, are substantially lower with only approximately 12,000 wells located. The proportion of these undocumented oil and gas wells that are unplugged is relatively unknown.

Unplugged or improperly plugged oil and gas wells can negatively impact the environment. These wells can act as a conduit for the migration of natural gas, oil, or brine to the surface, potentially contaminating surface waters or subsurface freshwater aquifers. Additionally, the emission of greenhouse gases, such as methane, to the atmosphere from such wells contributes to air quality degradation.

To mitigate these harmful environmental effects, it is important to locate and document abandoned and orphan oil and gas wells. Many of these undocumented abandoned wells are located on stream banks in valleys, due to the belief by historic oil and gas prospectors that subterranean rivers of oil followed the streams.

Pennsylvania’s anglers can contribute to this environmental protection effort by reporting such abandoned oil and gas wells to both DEP’s Bureau of Oil and Gas Management and to Penn State’s Earth and Environmental Systems Institute.

Additional information on the search for Pennsylvania’s abandoned oil and gas wells can be found at marcellusmatters.psu.edu. Further inquiries can be directed to Genevieve Elsworth (gwe107@psu.edu), Community Science Volunteer Coordinator at Penn State’s EESI.

Casting, Fly Tying and Fly Fishing Lessons
Guided Fishing Trips in the Laurel Highlands
I felt like I was running late as I headed upstairs. I grabbed the rod tube holding my five-weight. I wanted to throw some streamers today.

What about a spinning rod? I grabbed my lightest spinning rod and unzipped my tackle bag in the corner of the room. I grabbed the reel; the monofilament line appeared a bit yellowed but strong in my hands as I gave it a good yank.

A large box of lures and a smaller empty box to subdivide them into also accompanied me as I headed downstairs with multiple rods and equipment and stumbled out the door.

For those who know me well, I like to fish dry flies to rising trout. I’m not a purist. I just like to hunt rising trout and figure out what’s on the menu and then serve it to them just the way they like it.

It was the regional opening day of trout season, April 4, and even if the “olives” would be hatching, with the 25 mph sustained winds that were called for, I figured I’d better change things up. I needed to be on a stream and I wanted it to be one that held some traditional value to me.

As I pulled out of the drive, I still wasn’t sure where I was heading. I stopped at the local 7/11 for a coffee and a Pop Tart and then headed toward Stockertown Rod and Gun Club, where I have been a member since age 12, and the Little Bushkill Creek.

I grabbed my five-weight and my streamer box and headed toward the stream. I found a fishy-looking spot and rigged up. It was 10 minutes till 8 o’clock. I counted down the time on my cell phone. There is no excuse for an early start now that everyone has the time being beamed down from a satellite.

Although my traditions have changed, I have to admit I still felt some exhilaration as my cell flipped to 8:00. Overnight rains had left the stream in good shape, although slightly stained. I cast a woolly bugger into all the fishy looking places but the only tug on the end of the line was when a leaf caught on it.

The rain must’ve dropped the stream temperature overnight and the trout had become moody. At least that was my excuse.

I headed to Martins Creek, not to fish but for a late breakfast. Martins Creek’s time is coming soon, as it offers one of the earliest Hendrickson hatches in my area and willing wild brown trout if you hit it right.

I drove back home to Nazareth and renewed a library book on Gifford Pinchot, but that’s another story, and then headed to my home stream, the upper Bushkill Creek in Bushkill Township.

I got off the phone with my brother and we had talked about how things have changed over the years. Some of the water we fished as boys has been posted along the creek, but I recalled a short stretch below Hahn’s bridge that still had fishing permitted posters. I made a mental note to come back here in a few weeks with a garbage bag to pick up any trash left behind by others.

This time I grabbed the spinning rod and a few old CP Swings. That brought back some memories. The stream looked to be in great shape, the way I remembered it from the past. This part of the Bushkill gets pretty small in the summer and has some thermal issues that limit the number of wild trout that it holds, although I have caught some wild browns on occasion and brook trout have been documented in the headwaters.

I certainly hadn’t been racking up any big fish numbers today, so when I felt that first swipe at my spinner blade, I got a little excited and when I netted the first of what would be five rainbows throughout the stretch, I got a little emotional.

A lot of memories came flooding back, mostly of my dad and fishing that stream as a youth. All of those trout were hooked in the outer lip and released stress-free. I take pleasure in releasing a fish, because I know I have given an opportunity to someone else to catch that fish. Who knows, it might be a kid’s first fish.

I hope you enjoyed me sharing the day with you, but you may be asking yourself, “what is the moral to this story?”

I understand completely why the majority of our members gravitate toward fly fishing, including myself, and why we market to the fly fishing community. I fished on opening day with different equipment than I typically use, but it didn’t change my conservation values and I think we need to remember that sometimes.

As anglers, it is certainly our right and duty to weigh in on rules and regulations that affect the quality of our fisheries and angling experience, but I just want to make certain that we remember the big picture and focus on larger issues that can dramatically impact our sport like climate change, land use, storm water, riparian habitat and energy extraction.

We are working on all of these issues at some level within this organization, and we need to focus the grassroots on these issues as well.

I’m glad to see that there will be two breakout sessions at the Mid-Atlantic Regional meeting in Frederick, MD from June 6-7 on Climate Change: Forecast for the Mid-Atlantic Region and Marcellus Shale: How TU Chapters & Members Can Make an Impact.

These two issues have a high potential for negative impact on our native brook trout. I hope to see some of you there for this multi-state Mid-Atlantic TU get-together.

I will end with a quote from Gifford Pinchot, “The vast possibilities of our great future will become realities only if we make ourselves responsible for that future.”
The Pennsylvania Council of Trout Unlimited has more than 12,000 members in nearly 50 chapters statewide, with one common goal: The conservation and enhancement of Pennsylvania’s coldwater streams and fisheries, specifically our wild trout resources. Trout Unlimited is an IRS 501(c)(3) nonprofit organization, functioning for charitable, educational and scientific purposes. Donations are deductible to the extent provided by law. For information on advertising in PA Trout, call 814-692-5232, or e-mail advertising@patrout.org. See pages 2-3 for Council contact information, officers and committees. For listings of Regional VPs and Pennsylvania TU chapters, and their contact information, see pages 14-20.

Anyone who has watched “The Office” on television knows the show is set in Scranton. All of the locations filmed were actual businesses in Scranton. Take the time to buy some stationery at the Dunder Mifflin Store in the downtown mall.

Scranton is known as the “Electric City” because it was the first city in America to have public transportation. An electric trolley circuit covered the city.

Your tour will take you to the national historic site, Steamtown, which showcases steam locomotives from a past era. There will also be a trolley ride through town on a completely restored car from the Trolley Museum.

Did I mention shopping? Oh yeah, shopping. Bring comfortable shoes.

Now for a bit of housekeeping. From now until the PATU Executive Committee meeting in June, your regional vice president will be visiting chapters to pick up items donated for the fund-raising auction at the national banquet. Each chapter has been asked to donate an item of $100 or more for the auction. Please keep in mind, unlike a local banquet, most people attending this one will have flown into Scranton and will not have the ability to take large items like framed artwork on the plane. We already have three large pieces that we hope will be purchased by people who didn’t fly or are willing to pay the freight to have them shipped.

Please contact your VP when you are ready to have him pick up your donation. Contact me for information on the meetings at 570-954-5042 or fnepa@epix.net.

Adams County TU receives Governor’s Award for Environmental Excellence

Each year, projects that encourage and promote environmental stewardship are selected to be recognized at the Pennsylvania Environmental Council’s Annual Dinner. Thirty applications were received for consideration this year, and Adams County Trout Unlimited’s Conococheague Restoration Project was one of 15 picked to receive an award.

In 2003, the Old Chambersburg (Birch Run) Reservoir was drained. As a whole, the Conococheague Creek (or the Jig as some locals call it) is one of the healthiest and most productive wild trout streams in the South Mountain Region.

However, the section that runs through the Old Chambersburg Reservoir was shallow and had little trout habitat. Ten years later with the leadership of the DCNR Bureau of Forestry and the Adams County chapter of TU, the Conococheague Creek Stream Restoration Project began.

This two-year project enhanced native brook trout habitat on this impaired stretch by installing 24 fish habitat structures – cross vanes, single log vanes and j-hooks.

The project also enhanced the riparian buffer and initiated long-term physical and biologic monitoring of the creek. DCNR’s Bureau of Forestry and ACTU coordinated with over 17 active local partners, including other Trout Unlimited chapters – Cumberland Valley, Falling Spring, and National Capital, local businesses, state and county agencies, and local/state/national nonprofit organizations. DCNR’s Bureau of Forestry and ACTU built new alliances and strengthened existing ones to undertake the countless volunteer hours that were needed to complete the project and further the South Mountain Partnership’s mission.

As soon as the project was completed, news of the project spread quickly and local fishermen enjoyed the newly-improved stream almost immediately.

Pictured at the dedication of the Conococheague Creek restoration project on April 11 are, from left: Chris Sentz, Gleim Environmental Group; Dave Swope, Adams County TU; Don Albright, Cumberland Valley TU; PA Sen. Rich Alloway (R-33); G. Warren Elliott, PA Fish & Boat Commission; Stephanie Rider, Gleim; Roy Brubaker, district forester, DCNR; and John Graebner, National Capital TU.

PA COUNCIL OF TROUT UNLIMITED
Minutes of the April 11, 2015 Executive Committee Meeting
PFBC Facility, Pleasant Gap, PA

Others Attending: Samantha Kutskel, Nancy Bradley, Brad Isles.

President’s Report: The meeting was called to order at 10:37 a.m. by President Wagner. Wagner referenced a meeting that he, Katy Dunlap, Bob Schott and Amy Wolfe had with DEP Acting Secretary Quigley to discuss Marcellus Shale and Delaware River issues. A motion by G. Kutskel to discuss Marcellus Shale and Wolfe had with DEP Acting Secretary Wagner. Wagner referenced a meeting that Nancy Bradley, Brad Isles.

Treasurer’s Report: G. Kutskel reported that the Council’s 990N has been filed and audit is complete. Kutskel also mentioned that if chapters receive a letter from the IRS that they did not file their 990N that they need to send the IRS the email that confirms they completed the 990N. A motion by Charlesworth/seconded by Burns was approved to accept the treasurer’s report.

Discussion/Action Items

- Discuss PFBC Rulemaking #264 proposal to change Fly Fishing Only regulations – We decided to not comment on this at this time. The regulation states you must use a fly rod and fly reel, so we feel the wrong language may have been used.

- Discuss requirements of Act 153 Amendment to PA Child Protective Services Law – Wagner reported that we have sought guidance from National. We may need to reach out to Human Services to try to get some additional guidance. There was a motion by G. Kutskel/ seconded by Winters to send the guidance document from Human Services to our members along with a letter that suggest any member who plans to conduct a youth event obtain their clearances.

- Approve $500 donation for Wildlife Leadership Academy Brookies Camp – On a motion by Charlesworth/seconded by Murty, approved the donation of $500 to the Wildlife Leadership Academy for an Education Award.

- Discuss PFBC Facility, Pleasant Gap, PA

- Trout Management Committee: Report submitted.

- Women’s Initiative: S. Kutskel reported that we are still looking for a chairperson to head up this initiative for at least a one-year term, with the option available to serve multiple terms.

- Environmental Committee: Report submitted. Jeff Ripple reported that he is still working on updating policies. He also reported that there has been a decline in participation in the committee. S. Kutskel will work with Ripple to facilitate a face to face meeting. We will send an email to the entire membership looking for volunteers. Ripple will be writing a letter of support to DEP on the new riparian buffer guidelines. We discussed an issue on injection wells in Indiana County. It was suggested that Ripple get the local chapter involved. It was also suggested we look at possibly creating a policy on injection wells.

Legislative Committee: No Report.

Membership Committee: Report submitted.

Youth Education Committee: No report submitted.

S. Kutskel announced that Judi Sittler has volunteered to take the recently vacated chair position. We thank Eric Wilson for leading this initiative over the last few years.

National Leadership Council: Report submitted. Chapters are up for re-charter again next year. We will need to evaluate each chapter to determine how many years their chapter should be renewed. S. Kutskel and Murty will work on getting information to Regional VPs.

Program Director: Report submitted. A motion by Charlesworth/seconded by Malaska to approve upgrading the current additions of our website software (effects the CHP and PA Trout websites only). S. Kutskel reminded everyone that the Mid-Atlantic Meeting is scheduled for June 6-7 in Fredrick, MD. Keystone Coldwater Conference is scheduled from February 26-27, 2016.

Regional Reports

- North Central – Seven out of eight filed. Hayes reported that the Columbia County chapter has elected officers and is moving forward.

- Northeast – Nine out of nine chapter reports were filed.

- Northwest – All nine chapter reports were filed.

- South Central – All eight chapter reports were filed. Delco Manning was planning to submit a report over the weekend. Burns, Wagner and S. Kutskel attended and facilitated a reorganization meeting for the Perkiomen Valley Chapter in March. We will continue to work with the chapter in reorganizations. A May picnic is to plan.

Continued on next page...
Pennsylvania Council of Trout Unlimited would like to thank all members who contributed to our year-end appeal to help protect, conserve and restore Pennsylvania’s coldwater streams. We could not do this without your support. We wish we could recognize everyone who contributed in the newsletter, but do to limit space we would like to thank those who contributed at the Exceptional Value, High Quality and Class A levels.

$325. The information should be on the website soon. Members can attend breakout sessions at no charge, but they have to pay if they want to attend any of the meals. Nancy also mentioned that the annual award nominations are due July 31 and that they have moved to an online application.

The meeting was adjourned at 2:40 p.m.

— Samantha Kutskel
chapters, as well as many individuals, and that work should be recognized. If you have a group, chapter or individual you feel is worthy of a nomination, please consider filling out a nomination form. Nominations are due by July 31.

Forms may be emailed to Samantha Kutskel at skutskel@coldwaterheritage.org or mailed to her at P.O. Box 5148, Bellefonte, PA 16823. Please include a brief written justification for the nomination, clearly state award for which the person or group is being nominated, and the nominator's name and contact information (email, phone number and mailing address). For certain awards, there are specific people as indicated below who should receive the nomination form.

Following is a list of awards with a brief description of criteria for each:

- **Chapter with greatest membership increase** – Determined from National TU data.
- **Chapter with greatest percentage increase in membership** – Determined from National TU data.
- **Edward Urbas Award for Best PA Chapter** – This award is given to the chapter that best exemplifies the work of TU, including involvement in conservation efforts, community activities, outreach, youth activities, etc.
- **Best Small Chapter Award** – We will use the same criteria as used in the Edward Urbas Award, but this classification is limited to chapters with 150 or fewer members.
- **Best Chapter Project** – We are looking for work that is either unusual, demonstrates efficient use of resources, involves other organizations, or is notable for other reasons.
- **Doc Fritchey Award for Outstanding Coldwater Conservationist, TU Member** – Who do you know that has a history of exemplifying the TU mission? Who is your “go-to guy” for projects, problems or advice?
- **Outstanding Coldwater Conservationist, Professional** – Who have you worked with, either from a governmental agency or private enterprise, that was particularly helpful in helping you fulfill the TU mission?
- **Outstanding Volunteer** – Who do you know, or have worked with, that particularly contributed time and effort to helping a TU chapter or project, either one-time or ongoing, and was not necessarily a member of TU or a conservationist professional.
- **Best Chapter Website** – Is your website particularly attractive, clear, up-to-date and easy to navigate? If so, send nominations to Brad Isles at bisles@live.com.
- **Samuel Slaymaker Award for Best Chapter Newsletter** – If your newsletter has information about your chapter’s activities that is current, is well-presented and clear, and is visually attractive, you may very well win this award. Send nominations, with a few copies of the newsletter, to Brad Isles at PO Box 23, Grove City, PA 16127.
- **Dr. Jack Beck Award for Outstanding Youth Outreach** – Do you have a particularly active program for youngsters, or are you involved in a number of programs or unusual programs?
- **Ken Sink Award for Outstanding Service to PATU** – This award is given to a person who contributes to PATU’s mission in a notable way. It is intended to be given to people who have been involved for significant periods of time, and who have demonstrated unusual dedication. It is not necessarily presented every year.
- **Inky Moore Award for Outstanding Service to State Council** – This award is meant to recognize a person who would be considered an “up-and-comer” in PATU and demonstrates dedication to its mission and shows promise as a future major leader of the organization.

**Thank You**

PATU Awards 2015 Nomination Form

Fill out, clip and except where otherwise indicated mail this nomination form to: Samantha Kutskel, P.O. Box 5148, Bellefonte, PA 16823. You may also download it from www.patrou.org and mail to the same address. Scanned submissions can be emailed to skutskel@coldwaterheritage.org. Call with questions at 814-359-5233. The deadline for nominations is July 31.

Your Name: ____________________________________________  Email: ____________________________________________

Telephone Number(s): ________________________________________________________________

Name of Chapter/Person You Wish To Nominate: __________________________________________

Check one:

_______ Edward Urbas Best Chapter

_______ Best Chapter Project

_______ Best Small Chapter (150 or fewer members)

_______ Dr. Jack Beck Award for Outstanding Youth Outreach

_______ Ken Sink Memorial (not presented every year)

_______ Inky Moore Outstanding Contributions to PATU’s Conservation Mission

_______ Outstanding Coldwater Conservationist, TU Member (Doctor John A. Fritchey Jr. Award)

_______ Outstanding Coldwater Conservationist, Professional

_______ Outstanding Volunteer

(For an individual who has made long-term significant contributions through their work with state council)

_______ Samuel Slaymaker For Best Newsletter

(Send copies of at least three recent issues or email to Brad Isles at bisles@live.com)

_______ Best Chapter Website (Contact Brad Isles at bisles@live.com)

What particular characteristics, accomplishments or attributes merit consideration of this individual or chapter for this award?

- 35 Acres of Private Access to the World-Renowned Salmon River
- Meeting and Event Facilities
Northampton County Conservation District has been meeting to oversee a restoration project on Bushkill Creek. Plans were made for two stream cleanups in April. Our chapter held a successful eight-week fly tying class at Jacobsburg Environmental Education Center. The chapter had a display and fly tyers at the Grace Fellowship Church sportmen’s dinner and the St. John’s U.C.C. sportmen’s dinner. We have TIC release days in May and Northampton County Youth Day in June. Our 3rd annual Corn & Pig Roast is Sept. 12 at Riverside Barr & Grille.

Hokendauqua Chapter #535
Dave Abraham
610-844-3459, dabraham@rcn.com
hokendauqua.tu.org

Dates are set for Project Healing Waters outings in 2015. On June 20, the Marine Corps League is sponsoring a golf tournament with proceeds being donated for our PHW events. On March 24, John Mauser and other members met with Tyler Neimon of PFBC to look over the Atlas dam removal project. Planting will take place May 2. Work on the Coplay Creek restoration project starts Aug. 24 in Hokendauqua Park. Cleanup on Coplay Creek is May 9. Our other cleanup was April 25 on Hokendauqua Creek. On May 16, we will be at Minsi Trails Boy Scouts Jambo held at Kutztown University. June 13 is the National Wild Turkey Federation’s Women in the Outdoors event at Ontelaune Rod and Gun Club. We will teach the ladies about fly fishing and TU.

Lackawanna Valley Chapter #414
Charlie Charlesworth
570-586-3363, fnepa@epix.net
www.lackawannavalleytu.org

LVTU received an “Environmental Partnership Award” from Pennsylvania Environmental Council. The chapter conducted a cleanup on the Lackawanna River, installed wooden lunkers for trout habitat at the boulder placement project, attended a stormwater runoff symposium presented by Penn State University, along with having members attend meetings with the NEPA Conservation Alliance, the Lackawanna Heritage Valley Authority, the Lackawanna River Corridor Association and the Lackawanna County Conservation District. LVTU members met with representatives of PFBC, the Susquehanna County Conservation District and supervisors from Clifford Township to discuss habitat and stream restoration programs on the East Branch of Tunkhannock Creek, which is part of the Susquehanna River watershed. A chapter trip for steelhead was March 8-10. We started a program that includes 12 monthly newsletters emailed, two monthly newsletters printed and mailed, and two mini-newsletters printed on an oversized postcard and mailed. We participated in a used fishing tackle flea market and sold nearly $800 in used tackle collected from chapter members. We started our fifth round of TU Teens Fly Fishing School, held every other Saturday for four months. We normally only accept 12 students, but 30 registered and we narrowed that down to 21. We opened registration for the Keystone/Troul Unlimited Teens Conservation camp June 14-20. The chapter conducted all-female fly tying classes from February through March. Keystone College, through LVTU, started both a continuing education fly fishing course and a one-credit science lab fly fishing course for Keystone students. Classes are limited to 20 students and 57 registered. The college decided to conduct two classes of 20 students and told the other 17 they would register first in the fall semester. We received a CHP grant for $7,000 and a $3,000 grant from the Lackawanna County Conservation District.

Monocacy Chapter #491
Erik Broesicke
610-909-2652, monocacytu491@gmail.com
www.monocacytu.org

The annual Joint Chapter Spring Event was March 14. On March 25, we held a screening of the Fly Fishing Film Tour. We sold out the 200 seat theater on a Wednesday night. Special thanks to ArtsQuest, guest fly tyer Jerry Hadden, and everyone who supported this event. In partnership with the Wildlands Conservancy, the chapter received a CHP grant to help fund the removal of a small dam. We are also pursuing a brush deflector project on city property. A casting instruction program for TU members is set for May. The class was so popular that the first date sold out and a second was added.

Pike-Wayne Chapter #462
Matt Wishneski
570-685-5420
www.pwtu.org

Our annual banquet was March 21 at Lukán’s Farm Resort on Long Ridge Road, Hawley, PA. PATU VP Greg Malaska presented a banner recognizing the chapter as PATU’s 2014 best small chapter. He also presented Pike/Wayne’s Evening Hatch Award to past president John Hart for his leadership in organizing and executing local conservation projects. The chapter is planning to establish an area on the Masthope Creek for physically challenged anglers. Cabin fever fly tying meetings were held in January and February and one of our members is working with local Boy Scouts as a fly fishing and fly tying instructor as well as merit badge counselor.

Schuylkill County Chapter #537
Tony Mione
717-979-0235, tonymione@outlook.com
www.schuylkillcountytu.org

Local company, Solar Innovations, contacted TU and asked if we could come to their location in
Pine Grove to analyze a stream that runs through their property. After a few visits, it was decided brook trout would do very well in the stream and our chapter will work with them. A family fishing derby is May 2 after the Big Brothers Big Sisters Derby at S/A Trout Ponds in Orwigsburg. Sales of flies, spinners and monthly raffles continue. Our chapter was invited to attend Schuylkill Haven Scott Shade Annual Trout Rodeo at Stoyer’s Dam to set up a tent and sell our goods. Greg Wood of Rivers Outdoor Adventures held a one-fly event in the delayed harvest area of the Little Schuylkill River on March 22. All proceeds were given to SCTU. He will also be giving away an eight-hour float trip on the Lehigh River in September to benefit the chapter. Our major stream project will be in the Little Schuylkill River in the New Philadelphia area to install a handcapped ramp and plant trees along the stream. We ran four different fly tying classes around Schuylkill County this year. We were asked to do a radio program out of Pottsville on WPPA 1360. We have a one-hour program the third Tuesday of every month. Members attended a seminar on non-profit organization at Schuylkill Haven Art Center held by the Chamber of Commerce. We presented a check to Saint Clair Middle School teacher, Morgan Bretz, and Superintendent Jason Bendel for their TIC program.

Stanley Cooper Sr. Chapter #251
Joseph Gruszkieziewicz Jr.
570-430-2300, blastnecast@frontier.com

We are preparing for our annual youth and adult fly fishing instruction camps. Board members Joe Ackourey and Stanley Cooper Jr. will have as many as 30 youths under age 18 participating in fly casting, fly tying, entomology, knot tying and time on the stream to fish for a fly fishing camp in June. Members Jay Downs and Dave Cebrick will do a similar program for adults in May. The chapter received an Embrace-a-Stream grant. Member John Levitsky was most instrumental in researching and writing of the grant application. The grant money, along with additional funds from SCTU, will purchase additional time to be used on the head waters and small tributaries of Bowman’s Creek. Money will also be used to purchase plants and trees to create and repair riparian buffer zones.

Western Pocono Chapter #203
George Hludzik
570-788-2121, ghrlaw@ptd.net

The third event of our new speaker series was held at the Penn State University, Hazleton Campus, on March 19. Melody Remillard of the US Forest Service spoke on Grey Towers and “Gifford Pinchot: The Greatest Pennsylvanian You Never Knew.” We are hoping to have another presentation at Penn State in October. Our April 21 meeting was at the Nescopeck State Park Office. Don Baylor, renowned Pocono fly fisherman, artist and author provided a program on the history of trout fishing in the Poconos. The chapter’s summer outing is June 27 at Austin Blakeslee Park on the banks of Tobyhanna Creek. We are currently involved with the Nescopeck State Park to do a riparian planting project on the banks of a tributary to the Nescopeck Creek this summer. Tom Jones is a certified Boy Scout Fly Fishing Merit Badge instructor, and he led our chapter in conducting a merit badge class on fly fishing and fly tying for Boy Scouts in Berwick. Our chapter also helped at the Cub Scouts Fishing Derby the same day. We are currently working to find and provide funding for a TIC project. We were approached by a teacher in the Hazleton Area School District STEM Program who has everything in place except for the funding.

REGIONAL VICE PRESIDENT
Ben Hayes
119 Vista Drive
Mifflinburg, PA 17844
Email: brh010@bucknell.edu
Phone: 570-939-0730

Columbia County Chapter #38
Erick Lewis
ealewis@geisinger.edu
info@coldwaterheritage.org

Arrangements are being made to secure chapter members to offer tying and casting instruction for a new club at Bloomsburg University. We have been unable to locate a suitable venue for the Fly Fishing Film Tour. We will try again in the fall or next spring. At our April 17 meeting, we discussed the TIC family picnic along the banks of Fishing Creek at Kocher Park in Lightstreet. A great brook trout presentation by Ken Undercoffer followed.

God’s Country Chapter #327
Dr. Peter Ryan
814-274-8718, drflyfish@yahoo.com
We have been busy organizing our 2015 Project Healing Waters “Vietnam Veterans – Welcome Home” event in honor of the 40th anniversary of the end of the war in Vietnam. Pete Ryan met with National PHWFF CEO Ellen Killough, COO David Folkerts, and Regional Coordinator Skip Hughes at the Fly Fishing Show in Somerset, NJ, on Jan. 23. They have designated ours a “Destination Event” and committed to sending four to six disabled Vietnam vets from throughout the country to our May 19-22 event. The remaining nine to 11 participants will be disabled Vietnam vets from the Pittsburg, Buffalo, Erie, Batavia and Bath VA hospitals. Pete, Dave Saulter and Paul Campbell traveled to Brockport, NY, and met with Sgt. Gary Beikirch (Ret.), a Medal of Honor recipient and Army Special Forces medic from the Vietnam War who now serves as chaplain of the Congressional Medal of Honor Society. Gary not only agreed to attend this year, but asked if he could be one of the participants. Dave and Pete gave PHWFF presentations at the McKean Legion Riders, the McKean County Disabled Veterans and Port Allegany Legion membership meetings. They also presented the Coudersport Legion Post #192 a matted and framed print of Medal of Honor recipient, the Marine Corps’ Jason Dunham, in thanks for all of the support the Legion has given the chapter for eight years of PHWFF events. Our TIC trout are doing well under the watchful eyes of Ted Bear, Kathy Mitchell and sixth grade teacher Mrs. Nicole Frame. Tickets for our “Castaway Fishing Trip” raffle were distributed to members with thanks to Captain Fred Forsythe, who donated a six-hour, four-angler charter fishing trip on Lake Erie. Amy Wolfe, TU director of the Eastern Abandoned Mine Program and PA Eastern Brook Trout Habitat Initiative, and Dick Sodergen, president of the Kettle Creek Watershed Association attended our March meeting. Amy presented a program concerning the history of the partnership of National TU and the KCWA and their involvement in all the great work in the past 15 years in acid mine remediation and habitat improvement in the Kettle Creek watershed. We voted to donate $100 to and help with the Potter County Envirothon.

Lloyd Wilson Chapter #224
Bill Bailey
570-748-6120, wbailey@kcnet.org
www.lwfu.org

We finished our annual five-session fly tying instruction on March 26. Our TIC program at the Jersey Shore Alternative School, under the direction of Kurt Jones, was doing well, as was the program under Jim Rogers at Central Mt. High. Students are eagerly anticipating a release day in May. Our next membership meeting is May 27 at Citizens Fire Co. Katie Cassidy and Michele Kittell from the Wildlife Leadership Academy will update us on the outreach projects that last year’s “Brookies Camp” students are working

Continued on next page...
Penns Creek Chapter #119
Gary R. Parzanaese
717-667-7171, 6sneezes@comcast.net

The chapter welcomed WCO Cory Girt to our February meeting. Information on two veterans programs were discussed by Kevin Lutz. The first is an event being run by Spring Creek TU that we were asked to assist with on Penns Creek in May. The second is the Wildlife for Warriors Fly Fishing Tournament in September that benefits the Wildlife for Everyone Foundation and Project Healing Waters. Our annual banquet was March 7 at Belleville Mennonite School and featured a presentation by Mifflin and Juniata county conservation districts. The districts discussed past, present and future projects planned for local streams in both counties. Our TIC programs are progressing with only a minor issue with a chiller failure which was replaced in late December by Education Coordinator Larry Winey. Tuscarora Elementary School students are completing work on their annual “Trout in the Classroom” book that will be going to the publisher soon. TIC release dates were in March and April. The chapter hosted a workshop on Aquatic Invasive Species and Conservation on Feb. 28 at the Lewistown Rec Center. Chapter members from Penns Creek, Spring Creek, R.B. Winter and some local residents attended the workshop. The chapter is working Matt Shank on signage with information on invasive species and proper care of equipment to be placed along Penns Creek. Our annual spring stream cleanup was April 11.

Spring Creek Chapter #185
Bob Vierck
814-350-3702, pres@springcreektu.org
www.springcreektu.org

Our 42nd annual dinner and FUNraiser raised $21,000, honored Flyfisher’s Paradise for 42 years of partnership with the chapter and featured a video retrospective of our activities. We also held a “Bid for a Cause” auction at the fundraiser on behalf of the Veterans Service Program that raised $4,500 for this vital program. We ordered material for spring maintenance at Lower Milesburg and signed a three-year agreement for herbicide treatment at Upper Milesburg. The kiosk at Fisherman’s Paradise is in the final design stage. The Veteran’s Service Program held fly tying seminars each week at the YMCA. Guest speakers included Joe Humphreys, George Daniel, Bob Carlino, Dave Holmes and Steve Swyensky. Fishing activities for the VSP began in very cold weather on March 5 and continue twice a month until winter. Outdoor writer Mark Nale spoke on “Hooking Mortality of Trout Caught in the Bald Eagle Creek Tournament” during our April 2 meeting. Scheduled riparian planting at Fisherman’s Paradise was April 22 at Fisherman’s Paradise, followed by a Spring Creek cleanup and planting at Rock Road on April 25. Our next general meeting is May 7 at Comfort Inn State College with Jeff Skelding of Friends of the Upper Delaware River. On June 4, author and fly tyer Henry Ramsay will speak. Our family picnic is June 13 at Spring Creek Park.

Tiadaghton Chapter #688
Jere White
570-662-2167, whitesgordonsetters@gmail.com

We will be doing more stream improvements on Asaph Run this summer in cooperation with PFBC. We purchased several in-stream data loggers with funding supported by the Arnot Sportsmans Club. We recently funded repairs on chillers for two of the five TIC programs in our county. On May 16 we will be teaching fly casting and fly tying at Springfest 2015 at Hills Creek State Park. We supported two students to attend Wayne’s Coldwater Kids on April 26. The chapter received a partial Embrace-a-Stream grant. We will be studying gas development impacts on four tributaries of Little Pine Creek. We will also be assessing aquatic organism passage within the watershed. We will be looking at water quality, fish life and macroinvertebrate populations in partnership with the USGS lab in Asaph, National TU, Mansfield University and local school districts.

Iron Furnace Chapter #288
Mark Hanes
724-464-7320, m_d_hanes@yahoo.com
www.ironfurnacetu.net

Our banquet was April 11. Porcupine culvert replacement GP-11; PASPGP-4 permits were received from DEP. Work will start this spring. We are excited that native brookies will again be able to reach the headwaters of the watershed by fall to spawn. Plans are in the works to fix the deflector at the fly area on North Fork Creek with Boy Scouts this summer. Fly tying sessions were again a success with 15 to 25 attending each class.

Iron Furnace Chapter #288
Mark Hanes
724-464-7320, m_d_hanes@yahoo.com
www.ironfurnacetu.net

Our banquet was April 11. Porcupine culvert replacement GP-11; PASPGP-4 permits were received from DEP. Work will start this spring. We are excited that native brookies will again be able to reach the headwaters of the watershed by fall to spawn. Plans are in the works to fix the deflector at the fly area on North Fork Creek with Boy Scouts this summer. Fly tying sessions were again a success with 15 to 25 attending each class.

James Zwald Chapter #314
Murray Neepor
814-834-3472, mneepor@zitomedia.net

The chapter president met with Elk County Conservation District, Cameron County Conservation District, Western Pennsylvania Conservancy, and the Headwaters Charitable Trust...
Foundation to advance planning on the Bendigo Park habitat project. We developed conceptual plans for 500 feet of in-stream habitat and bank stabilization structures near the dam removal site in Bendigo State Park on the East Branch of the Clarion River. The adjacent landowner reviewed these drawings and he has agreed to support the project. In addition, several local businesses have agreed to support the project with in-kind and financial recourses. The chapter will continue to develop formal plans, seek permits and funding for this project during the coming year. We submitted letters of support and appreciation to PFBC for its consideration for wild trout status on four unnamed tributaries of Wycoff Run in Cameron County. We conducted six fly tying sessions during February and March. Several students from Cameron and Elk counties participated in Wayne’s Coldwater Kids. We will be supporting TIC release days for St. Marys Area Senior High School and Elk County Catholic Middle School.

Our annual banquet was March 21 at the Park Inn by Radisson in West Middlesex. Due to logging activity on the Beagle Club property along the Coolspring DHALO area, this summer’s workdays will be dedicated to restoring the access trail. We also need volunteers for a workday on Wolf Creek in Grove City that is a joint project with other local agencies. Watch our newsletter or website for details. Our five existing TIC programs are getting ready for their release dates and all have reported having a good year. The annual Wolf Creek Fishing Derby was April 25 and featured fishing and instruction. The Youth and Handicap Special Regulation Area on Deer Creek is open for the first month of the trout season. The area is located along Creek Road between Route 173 and the Custaloga Boy Scout Camp. Opening Day festivities were be handled by the Deer Creek Improvement Group. Our annual Oil Creek fishing outing is May 9.

Neshannock Creek #216
Jenn Kremis
724-588-4378; Bentley48@neo.rr.com
www.neshannock-tu.org

GET A CUSTOM TROUT UNLIMITED PENNSYLVANIA LICENSE PLATE!

Want to show others that you’re a proud member of PATU and support the mission of Trout Unlimited? Well, you can, and it will only cost you a one time charge of $25 for a specialty PA license plate. The custom plate fee is in addition to your annual registration fee and the plate is available for passenger cars and trucks 14,000 lbs. or less, motor homes and trailers.

To order your Pennsylvania Council of Trout Unlimited PA state license plate, send your name, TU membership number and current PA license plate number by email to rpennell37@comcast.net or mail to:

Bob Pennell
2319 Valley Road
Harrisburg, PA 17104

In return, you’ll receive an application form to complete and send with your $25 payment to PennDOT.
The chapter continues to be active in conservation activities on both the upper main stem and west branch of Perkiomen Creek. A stream cleanup is planned for May. On March 16, Samantha Kutskel, Chris Burns and Brian Wagner met with chapter members for the purpose of determining the course of chapter reorganization. About eight members attended. Four additional members were unable to attend but contacted Chris Burns and expressed interest in becoming involved. TIC release days are planned for May 7 and 8.

SE Montgomery County Chapter #468
Richard Terry

www.tullytu.org

This year we are using a raffle to raise money for our chapter. The grand prize is a 1,000 gift certificate to TCO and the first prize is a $500 gift certificate to TCO. There are many other great prizes worth at least $400. Buy tickets on our website at www.tullytu.org and click on “purchase tickets.” We rescheduled our Casting for Recovery program for July. Our February and March programs centered on the Unassessed Waters Initiative and Marcellus shale. The chapter is moving forward with the UW1 and will start to look at unnamed tributaries in the Maiden Creek watershed. TU National and PFBC will be working in that watershed this spring. Breakfast on the Tully begins May 9 at the Tully house from 8:30-10 a.m. Cost is $6. Breakfasts continue on the second Saturday each month thru September. We visited one of the elementary schools that is in its first year of the TIC program and they are doing a great job. Stroud Water Research is working with a few of the schools this year by visiting and talking about what trout eat and their habitat. The kids are going to plant “leaf packs” about a month before they stock their fish. They will then open the leaf packs and see what has developed. We plan to add a couple more schools this coming year. Upcoming events include Bass Fishing on the Schuylkill with TCO’s Jake Villwok at 7 p.m. May 20 at the Tully House; and George Daniel at 7 p.m. June 17, also at the Tully House.

Valley Forge Chapter #290
Robbi Freisem
610-662-9333, rfreisem@verizon.net
www.valleyforgetu.org

The VFTU Trout Show was March 26 with Steve Schweitzer speaking about trout fishing in Rocky Mountain and Indian Peaks national parks. This year’s Dusinberre Keeper of the Stream award went to Chuck Cutshall, who led the way in getting the PHWFF program started at the Coatesville VA, which led to an additional program for non-patient veterans at the West Brandywine Fire Company building. He has also worked with Tredyffrin Township to coordinate multiple tree plantings and repair work at Wilson Farm Park. Artist Susan Yoder donated the artist proof of her painting that was selected as a PFBC trout stamp. Member Charlie Griffen donated an engraved bamboo display fly box containing an assortment of 12 flies tied by A.K. Best and a copy of his book “Fishing with AK.” The flies and book are being raffled, and the drawing takes place at VFTU’s general meeting in May. Discharge from Atwater Lake (Quarry) is supplying more cold water to Cedar Hollow Run than it had been last year but there may still be some blockage. The Trammell Crow/Atwater agreement continues to be on hold for assurance of complete discharge repair. A survey of member interests is being prepared to assist determination of new projects and potential participants. The VFTU Fly Fishing School is held yearly on the Sunday after Mother’s Day, which is May 17 and is an all-day immersion into fly fishing. We are keeping tabs on eight TIC programs. PHWFF programs meet weekly at West Bradford Fire Company and the inpatient program at the Coatesville VAMC. Our upcoming meeting is 7:30 p.m. May 14 with Willy Eldridge from Stroud Labs speaking on “Healthy Streams” at Stroud Water Research Center, 970 Spencer Road, Avondale.

Adams County Chapter #323
Dave Swope
717-253-6680, swope@hotmai.com
www.adamscountytu.org

State Rep. Dan Moul presented Adam McClain, Adams County watershed specialist and youth coordinator for the chapter, with a House of Representatives citation for being named Conservationist of the Year, Professional by PATU. Also on hand to recognize McClain was the Adams County Commissioner Jim Martin. Our annual banquet was March 14. Phase 2 of our Conocohenque Creek restoration project was completed and has received kudos from numerous organizations. A celebration was held on April 11. TU members helped float Conewago Creek with PFBC on March 14. Litter cleanup was March 20 with Gettysburg High School TIC students assisting. We have 10 schools participating in TIC programs. One youth member signed up to attend the Teen Summit this June in North Carolina.

Codorus Chapter #558
Tom Feninez
717-817-8446, tom@codorustu.org
www.codorustu.org

Our annual stream cleanup was April 11. We are holding a Family Fishing Day event with a wide variety of activities at Codorus State Park on June 13. Our West York TIC program’s trout release date is May 7. We’ve been in contact with the Spring Grove Area School District about possibly adding TIC next year. We’ve completed and submitted pre-contract paperwork for our recent Growing Greener grant.

Cumberland Valley Chapter #052
Justin Pittman
717-360-8823, flyfishing80@gmail.com
www.pacvtu.org

We had three fundraisers this quarter, including our banquet on March 20. On March 21, we had a booth at the Fly Fishing Museum for Yellow Breeches Anglers, and March 27-28 we had our booth at the Fly Fishing Museum open house. We have been working closely with our chairperson to focus on our TIC program and we continue to expand into more schools. We plan on sending two members to the regional meeting in the beginning of June. The Rivers Youth and Conservation Camp is June 21-26 at Allenberry Playhouse. The Street to Streams Program is June 30-July 1 at the same location and the East Licking Creek chapter trip is June 6.
We are in the process of implementing a contact management system for the chapter to better communicate with members and other stakeholders such as donors, other conservation contacts and vendors. Our annual banquet was April 11 at the Holiday Inn of Grantville. Volunteers meet on Sunday afternoons to maintain our diversion wells in the headwaters of Stony Creek. The Quittapahilla Watershed Association continues to move forward on a substantial restoration and improvement project in the Quittapahilla Nature Park. The chapter has identified a site on Stony Creek to install a permanent monitor and data logger that will allow continuous monitoring of various water quality parameters. Finally, the chapter is moving forward with a project to improve stream banks and habitat in the children and handicap only fishing area on Clarks Creek. We support six TIC programs in Dauphin and Lebanon County schools. We participated in Earth Day in the Park at East Hanover Twp. Park on April 19 and the Wetlands Festival at Wildwood Park on April 25.

Donegal Chapter #037
Jim Wellendorf
717-399-8165, wellendorf@verizon.net
www.donegalatu.org

Clay Pankewicz, a vet and a new member of our chapter, is eager to establish a veterans program for the chapter. Donegal TU was the top chapter for recruiting women into TU during Women’s Initiative. We are working aggressively to improve our women and youth membership. Our 36th annual banquet was March 28 at the Host Farm Resort in Lancaster. We have installed, graded and seeded four mudsills at the Climbers Run Preserve project. An informative poster will be placed at strategic locations in the preserve so visitors can learn about the project. We will install a sign at each end of the trails leading to the project area and one in the education center. We planted 20 trees during the Lititz Run stream cleanup on March 21. Our seven TIC programs are doing well. Two additional classrooms were for the 2015-16 school year. Two youths will be attending the 2015 Rivers Conservation and Fly Fishing for the 2015-16 school year. Two youths will be doing well. Two additional classrooms were installed a sign at each end of the trails leading to the project area. We have installed, graded and seeded four mudsills at the Climbers Run Preserve project. Falling Spring Chapter #234
Rod Cross
717-264-2747, crcross@comcast.net
Planning is underway for the chapter’s banquet in October. Dialogue continues for a stream improvement project in the fly fishing only section of Falling Spring at the request of a landowner. The chapter responded to a financial aid request for the 2015 Rivers Conservation and Fly Fishing Youth Camp by donating $750 to be used for supplies and materials used at the camp. The Falling Spring Invitational PHWFF event is May 16. The Franklin County Sportsmen for Youth Day is June 13 at Waynesboro Rod and Gun Club.

John Kennedy Chapter #045
Dan Beck
814-932-2431, normandyb@aol.com
Two chapter projects have received permits, and we are awaiting dates from PFBC for work on Poplar Run and Clover Creek. We have four schools in the TIC program. Release dates were at the end of April and beginning of May. Our Women’s Field Day is May 16 at Ridges Gap Sportsman’s Club, and Youth Field Day is June 6 at the same location.

Muddy Creek Chapter #575
Fred Hess
717-650-6566, muddycreekatu@comcast.net
www.muddycreekatu.org

Patches and buttons for 2015 have arrived and are on sale. We also have an opportunity to raise funds by doing some volunteer work for the York Revolution baseball team this summer. The second phase of Pine Run monitoring will be conducted this spring. The chapter is currently in the process of partnering on a project with the York County Conservation Society. We were contacted by YCCS about partnering for a grant to design and set up educational displays on its Bonham Sanctuary, which is in our watershed. Spencer Run, a tributary to Muddy Creek, runs through their reserve.

www.arrowhead214tu.org

Our annual banquet was at the CU Club in Ford City and it was our most successful banquet to date. We acquired a $150,000 grant to restore 3.2 miles of Huling Run in Armstrong County, which is a wild trout producing stream and has been damaged by AMD for many decades. The chapter will be assisting with TIC releases for Divine Redeemer, Lenape Elementary, West Hills Intermediate, South Buffalo Elementary and Buffalo Elementary. We will also conduct a macro study in conjunction with the local conservation district and have casting demonstrations during the releases. We will be donating trout to the Buffalo Valley Sportsman’s Club and the Cadogan Field & Stream Youth Field Days. A casting demonstration is set for May 14 at Crooked Creek Lake.

Chestnut Ridge Chapter #670
Dale Kotowski
724-747-1513, pheasantfarmflycasters@hughes.net
www.chestnutridgetu.org

We celebrate our 20th anniversary in 2015. Activities culminate on June 26 with the second Youghiogheny River Symposium at the Penn State Fayette campus. It will examine the Yough as a biological, social, recreational and community resource. The chapter received a proclamation from the state Senate honoring us for our conservation efforts in the Laurel Highlands. Sen. Richard A. Kasunic, sponsored this proclamation. Our chapter’s Coldwater Conservation Corps continues to monitor four local streams: Beaver Creek, Ramcat Run, Quebec Run and Mill Run. Data has been entered into TU’s database since April 2013. Our Research Management & Protection Committee continues remediation efforts on Jonathan, Morgan and Glade Runs. We are also monitoring activity on the Curry Mine coal-stripping project above the Youghiogheny River and the Great Allegheny Passage rails-to-trails. We are partnering with DCNR staff from Ohiopyle State Park to provide coldwater conservation outings for area middle schools to study water chemistry and stream hydrology, sample macro invertebrates and learn to fly cast. Several participate in TIC and will be releasing their trout on these scheduled days.

Continued on next page...
We are ahead of budget projections this year, having received two grants from the Laurel Highlands Visitors Bureau, one for outreach and advertising, and one for our Rock Run acid remediation and brook trout restoration project. Another grant is pending. The chapter and the Lincoln Highway Heritage Corridor have established contact with State Rep. Ted Harhai, Democratic chair of the House Game and Fish Committee. Our 4th annual Laurel Highlands Trout Trail fly fishing tourism and regional economic development program began March 20 with an opening reception titled “Wine on the Fly.” Our 13th annual Youth Fly Fishing and Conservation Program began in January.

Fort Bedford Chapter #291
Guy Stottlemyer
814-207-1930, gmsstottlemyer817@gmail.com
www.fortbedfordtu.org

FBTU fly tying classes ended on March 21 after 10 Saturday sessions. Members participated in the annual Bobs Creek cleanup on April 4. Members also volunteered at the Keep Bedford County Beautiful Earth Day Stream Sweep on April 25. The chapter is planning a riparian planting along Wallacks Branch in the Bobs Creek watershed at a date to be determined. Also, members will assist in the installation of habitat and streambank stabilization devices at a site on Little Wills Creek. FBTU is planning a fundraising picnic for Aug. 22.

Penn’s Woods West Chapter #042
Walter Reineman
412-999-8292, waltterr28@hotmail.com
www.pwwtu.org

We manned a booth at the Monroeville Sportsman’s show Feb. 14-16. In addition to promoting the chapter and the TU message to a constituency not necessarily aware of our conservation message, we also sold flies tied during the show. We are excited about our new women’s outreach program. Events are being finalized for spring and summer. Our membership chair is fine-tuning our mentoring program and we expect to have small groups of new or neophyte members going out with experienced fishermen this summer. Our Cabin Fever show on Feb. 22 with speakers Jon Hooper, Mick Schmidt, George Daniel and Scott Loughner was a resounding success. Our involvement continues with local suburban stream, Pine Creek, in Allison Park. Our expenses have diminished recently due to our relationship with Hampton Twp., which has generously provided materials and heavy equipment time for recent projects. In addition, the Allison Park Sportsman’s Club coordinates a stream stocking, cleanup and youth fishing derby. Another offshoot of our tenure with Pine Creek is a one-day exclusive stretch of Little Pine Creek for young fishermen under 12 that’s stocked for opening day. We have two strong TIC participants with a third in the pipeline.
